2024/2025

# HEADWEAR STYLES

This is your guide to our headwear styles. We group our headwear product line into style categories that are based on the general construction, profile and shape of each model.

## 5 PANEL

The 5 panel is made with a flat front panel making it the perfect construction for models with a printed front panel. The seamless front panel also makes it one of the easiest cap styles to embellish.

PAGE 5

## BEANIES

Also commonly referred to as knits, this knitted headwear style is designed to be worn as a fashion accessory. Clip labels or small patches are the best embellishment methods for this headwear style.

PAGE 27

## 6 PANEL

The Classic 6 panel baseball cap is as authentic as the game itself. Available in a wide range of profiles and fit, this traditional cap style is the go-to look for players, fans, and outdoor enthusiasts.

PAGE 9

## HATS

Hat styles are designed for maximum protection from the elements and feature a 360 degree brim. Available with performance fabrics or straw. Well suited for applique or small patch embellishments.

PAGE 33

## 7 PANEL

This unique and modern looking style offers a large seamless front panel with a curved top seam. The large seamless front makes this style ideal for all types of embellishments.

PAGE 25

## POORBOY

As a part of the flat cap family, Poorboy caps have a similar look to Newsboy caps. However, these caps have a leaner body than the newsboy caps and they omit the button at the top.

PAGE 38

## VISOR

Visors are designed to shield the sun from your eyes and keep your head cool. Small, simple embellishment designs work best on this style of headwear.

PAGE 39

## ACCESSORIES

Our versatile multi-functional headwear effortlessly adapts to your lifestyle, offering endless possibilities for wear and use. From headbands to face masks, these accessories are designed to be a wardrobe essential for any occasion.

PAGE 40

## CAP PROFILES AND FUNCTIONS

### STRUCTURED

A structured cap typically refers to a type of headwear, such as a hat or cap, that has a well-defined and rigid form.

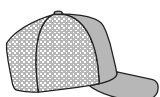

### UNSTRUCTURED

An unstructured cap is a type of headwear that lacks the rigid internal support and defined shaping found in structured caps.

### FLAT PEAK

A flat peak cap, also known as a flat-brimmed cap or snapback, is a type of headwear known for its straight and flat brim.

### CURVED PEAK

A curved peak cap, often referred to as a curved-brim cap or simply a baseball cap, is a classic and widely popular style of headwear known for its rounded visor.

### HIGH FIT

A High Fit cap has a crown that sits higher on the head compared to traditional or lower-profile caps.

### MID FIT

Mid-fit caps strike a balance between the casual look of low-profile caps and the prominent appearance of high-profile caps.

### HAT

This type of headwear can offer a versatile and stylish option, providing sun protection while maintaining a casual or sporty appearance.

# EMBELLISHMENTS

This is your guide to the embellishments we offer. Each embellishment offers unique features and the same "Quality in Every Stitch" guarantee that you expect from all products.

## EMBROIDERY

PAGE 45

The classic look of direct embroidery is a proven embellishment method commonly used on baseball style caps. Best used for designs with larger design detail and is available with a 3D option.

## PATCHES

PAGE 48

A traditional embellishment method reinvented and is now the go to look for style conscious headwear buyers. Patches can deliver a higher level of detail than direct embroidery and are available in sublimated, woven, rubber or embroidered options.

## LEATHER

PAGE 51

Our embossed or debossed leather applique gives your design a natural, rugged look with a touch of class. Ideal for complex designs with small detail and that look good in a one-colour application. Available in natural leather or coloured faux leather.

## LABELS

PAGE 52

Twill, felt, woven or printed appliques add a dimensional, stitched on look to your design. This embellishment type is well suited for unstructured cap styles & lighter weight fabrics.

## TRANSFERS

PAGE 53

This modern embellishment method delivers a very clean look and is ideal for complex and multi-coloured designs. Great for our lightweight performance cap styles.

## CLIP LABELS

PAGE 56

An understated embellishment method that provides a subtle branding touch to knits, caps or hats. Available as a woven label, embossed natural leather or faux leather.

## FLOCKING

PAGE 57

Flocking is a unique heat transfer vinyl that gives your design an added dimension, given its raised, soft and textured suede/velvet feel. From printable to cut-out, flocking is cost effective and can be heat transferred onto any headwear of your choice.

## SCREEN PRINT

PAGE 58

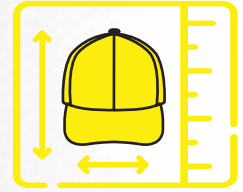

Screen printing on a cap is a process that uses a screen to transfer ink onto the fabric, creating detailed and vibrant designs. We only screen print on 5 panel caps.

\*DISCLAIMER: We only screen print on panels.

CAP + BRANDING  
= MAGIC

# EMBROIDERY

## EMBROIDERY

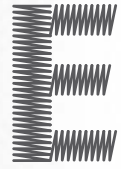

The rich look of direct embroidery is a proven embellishment method commonly used on baseball style caps. Whether it's your own custom logo or one of our stock name drops, mascots or team letters, our direct embroidery will make your cap stand out. We also specialize in raised, 3D embroidery.

- Best for bold designs with a medium level of detail.
- Available in standard or raised 3D. Not all designs can be produced in 3D.
- Max Size: Varies by cap style, but 53,975mm H X 107,95mm W is the standard max size for cap front position.

# PATCHES

## EMBROIDERED PATCH

A traditional and proven embellishment method reinvented is now the new look for style conscious headwear buyers. Embroidered patches deliver a higher level of detail than direct embroidery and give your cap a classic look.

- Simple shape patches have a merrowed edge and are hand stitched to the cap, complex shape patches have a satin stitched edge and are heat pressed to the cap.
- Max Size: 50,8mm H X 101,6mm W.

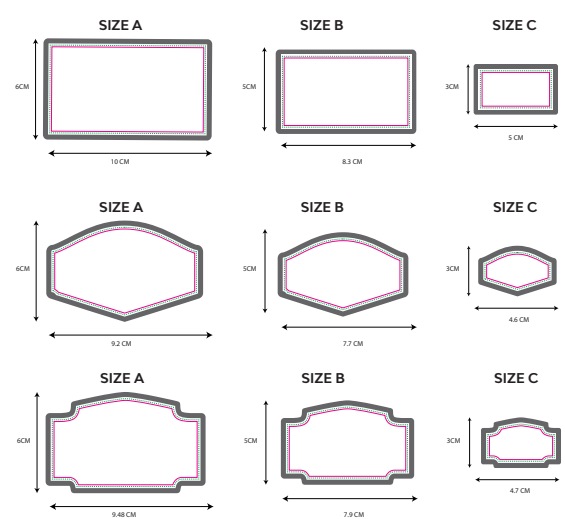

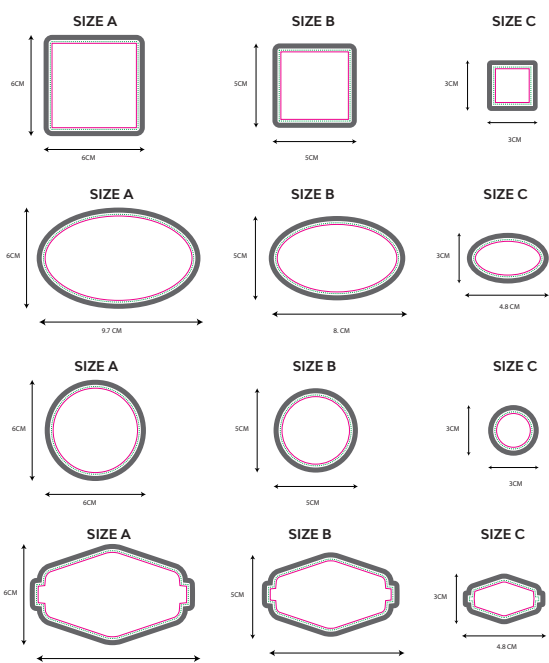

## WOVEN PATCH

Woven patches can deliver a higher level of detail than embroidered patches and will give your cap a slightly more refined look. Available as a patch or label.

- Simple shape patches have a merrowed edge and are hand stitched to the cap, complex shape patches have a satin stitched edge and are heat pressed to the cap.
- Max Size: 50,8mm H X 101,6mm W.

## STANDARD PATCH SHAPES

# PATCHES

## SUBLIMATED PATCH

A new twist to a classic embellishment method. Sublimated embellishment is ideal for reproducing multi-colour, complex logos with small detail. Available as a patch or label.

- Simple shape patches have a merrowed edge and are hand stitched to the cap, complex shape patches have a satin stitched edge and are heat pressed to the cap.
- Max Size: 57,15mm H X 107,95mm W.

## RUBBER PATCH

Our high quality rubber patches will give your cap a very bold and technical look. This embellishment method adds an amazing level of dimension to any design. Ideal for multi-coloured logos with a moderate level of detail.

- Available in stitch applied simple shapes, or heat applied complex shapes.
- Max Size: 57,15mm H X 107,95mm W.

# PATCHES

## SCREEN PRINT PATCH

Screen printing on a cap is a process that uses a screen to transfer ink onto the fabric, creating detailed and vibrant designs. It's a durable method for customizing caps with graphics, logos, and text, making it a popular choice. We only screen print on 5 panel caps.

**\*DISCLAIMER:** We only screen print on panels.

- Available in stitch applied simple shapes, or heat applied complex shapes.
- Max Size: 57,15mm H X 107,95mm W.

# LEATHER

## EMBOSSED LEATHER

Our embossed leather applique gives your design a natural, rugged look with a touch of class. Ideal for complex designs with small detail and that look good in a one colour application. Available in natural tan leather or coloured faux leather.

- Best for complex designs with a high level of detail.
- Simple shape appliques (circles, rectangles, etc.) are stitched to the cap.
- Complex shape appliques (irregular shapes) are heat press applied to the cap.
- Max Size: 50,8mm H X 101,6mm W.

## DEBOSSED LEATHER

Our debossed leather applique delivers a classic, very high end look with your design stamped into the leather. Offered in genuine or faux leather and available only in simple shapes for direct stitching to your cap. Best for designs with a moderate level of detail.

- Designs are stamped into the applique with imprint color of black, brown, dark brown, or tonal (no ink).
- Simple shape appliques (circles, rectangles, etc.) are stitched to the cap.
- Max Size: 50,8mm H X 101,6mm W.
- Debossed applique cannot be heat pressed.

## EMBOSSED GENUINE & FAUX

## DEBOSSED GENUINE & FAUX

## EMBOSSED METALLIC FAUX

# LABELS

## WOVEN LABEL

Woven label applique is a very clean and refined look that matches well to unstructured cap styles and lighter weight fabrics.

- Simple shapes are necessary to tack down label applique.
- Labels are stitch applied to the cap with a running stitch tack down.
- Max Size: 44,45mm H X 88,9mm W.

## PRINTED LABEL

Screen Printed and Sublimated labels provide a clean, simple look. Screen Printed labels work best in one-colour application. Sublimated labels work for all complexities of logos. This type of embellishment works well with unstructured cap styles and lighter weight fabrics.

- Simple shapes are necessary to tack down label applique.
- Can be used with multiple layers of fabric for a more dimensional look.
- Min Qty: 72 pcs for Screen Printed, 48 pcs for Sublimated.
- Max Size: 44,45mm H X 88,9mm W.

# TRANSFERS

## FULL COLOUR TRANSFERS

A more detailed alternative to Screen Printed transfers that is heat pressed directly to the cap. From one colour logos to photographic prints, designs are free floating and can be applied over a seam.

- Full Color Transfers sit on top of the fabric with a slight relief.
- Weather and outdoor conditions will affect the durability and life of the embellishment.
- Best when kept to one or two colours.
- Max Size: 57,15mm H X 139,7mm W.

## T.P.U. TRANSFERS

T.P.U. Transfers is the latest innovation in transfer printing technology. It brings a new dimension to transfer printing by combining durability, flexibility, and vibrant color reproduction like never before.

- T.P.U. Transfers are designed to withstand the test of time.
- Unlike traditional transfer methods, T.P.U. Transfers offer unparalleled flexibility.
- It also allows for easy application
- Max Size: 57,15mm H X 139,7mm W.

# TRANSFERS

## D.T.F. TRANSFERS

DTF, or Direct-to-Film printing, stands out as a revolutionary full-color printing technology renowned for its capacity to imprint intricate designs onto specialized films designated for transfer onto caps. This advanced printing method epitomizes efficiency and versatility, making it an optimal choice for various applications across different industries.

At the heart of DTF printing lies a sophisticated heat transfer process that ensures impeccable results and exceptional durability. Unlike conventional printing techniques, DTF utilizes specialized films as intermediary carriers for the designs before they are seamlessly transferred onto caps. This distinctive approach not only facilitates precise rendering of intricate details but also ensures vibrant color reproduction that rivals traditional silkscreen prints.

# TRANSFERS

## SILICONE TRANSFERS

This modern embellishment method provides a very high end look and raises your logo or design to a new level. Delivers a durable embellishment and looks great when matched with any of our technical cap styles.

- Silicone Transfers are heat press applied directly to the cap and have a matte finish.
- Will range in thickness between 0.5 - 2.0 mm.
- Bold designs will be thicker than designs with small detail.
- Best when kept to one or two colors.
- Max Size: 57,15mm H X 107,95mm W.

## SUBLIMATION

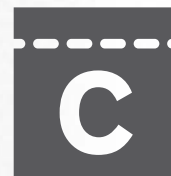

A modern and clean look, great for multi coloured logos and designs with a high degree of detail. Sublimation prints can be used only on a white, seamless foamie front panel cap style.

- Sublimation prints are fused directly into the foam fabric.
- Weather and outdoor conditions can affect the embellishment, but is more durable than a full colour transfer.
- Max Size: 57,15mm H X 107,95mm W.

# CLIP LABELS

## WOVEN CLIP

This subtle embellishment method adds a high quality, custom look to any cap or knit. Ideal for multi-coloured logos with a moderate level of detail, clip labels can accommodate your logo on both sides of the clip.

- Woven clip labels are hand stitched to the edge of a knit hat or to the back of a cap.
- Max Size: 76,2mm H X 38,1mm W.

## LEATHER CLIP

This unique embellishment method adds a rich custom look to any cap or knit. Ideal for single coloured logos with a moderate level of detail. Logos are laser etched on the leather clip. Leather clip labels can accommodate your logo on both sides of the clip.

- Offered in both genuine and faux leather.
- Leather clip labels are hand stitched to the edge of a knit hat or to the back of a cap.
- Max Size: 76,2mm H X 38,1mm W.

# FLOCKING

## FLOCKING

Flocking is a unique heat transfer vinyl that gives your design an added dimension, given its raised, soft and textured suede/velvet feel. Flocking is cost effective and can be heat transferred onto any headwear of your choice.

- Flocking adds a tactile dimension to your branding, making it stand out.
- Flocked materials often have a distinctive, velvety appearance that can enhance the visual appeal of branded headwear.
- The tactile nature of flocking can be associated with quality and luxury.

# SCREEN PRINT

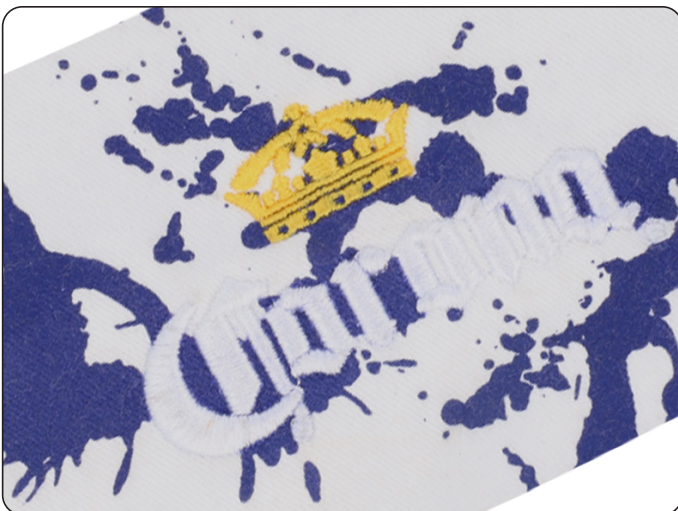

## SCREEN PRINT

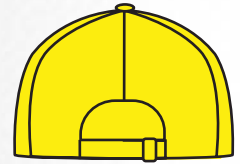

Screen printing on a cap is a process that uses a screen to transfer ink onto the fabric, creating detailed and vibrant designs. It's a durable method for customizing caps with graphics, logos, and text, making it a popular choice. We only screen print on 5 panel caps.

**\*DISCLAIMER:** We only screen print on panels.

- Available in stitch applied simple shapes, or heat applied complex shapes.
- Max Size: 57,15mm H X 107,95mm W.
